

# Cradle

## Warnings & Instructions

### **WARNING**

Failure to follow these warnings and the instructions could result in serious injury or death.

### **FALL HAZARD**

To help prevent falls, do not use this product when the infant begins to push up on hands and knees or has reached 15 lbs., whichever comes first.

# **SUFFOCATION HAZARD**

## Infants have suffocated:

In gaps between extra padding and side of the bassinet/cradle, and on soft bedding.

Use only the pad provided by manufacturer, NEVER add a pillow, comforter, or another mattress for padding.

To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

If a sheet is used with the pad, use only the one provided by the bassinet or cradle manufacturer or one specifically designed to fit the dimension of the bassinet or cradle mattress.

The use of furniture wax and polish should be avoided. The surface with which the baby can come in contact should be wiped clean using a damp cloth and a small amount of mild soap. DO NOT use strong detergents as they may be an irritant to the baby's skin. If refinishing, use a non-toxic finish specified for children's products. Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a bassinet or cradle or attach strings to toys.
